8 Interview Community Partner with the use of the prototype

Essential Question: What information do I need to gather from my community partner about their needs from the 3D representation? How do I figure out what information we still need?

Unpacking the Standards:

Planning your Prototype Interview:

From your initial information and data, who are you going to interview and share the prototype? _____

_____

_____

What information do you hope to gather about a possible service-learning

project? _____

_____

_____

_____

Who will be going with you? _____

_____

When and where would you be going to meet? _____

_____

_____

What is the description of your prototype? _____

_____

_____

_____
